For Immediate Release

THE COMPUTER RECYCLING CENTER SETS RECORD, RECYCLING OVER 3 MILLION POUNDS OF E-WASTE!!!

The Computer Recycling Center is proud to announce that in 2009 over 3 Million Pounds, or 1,500 Ton, of e-waste was recycled through the Springfield, MO. facility. This is an increase of 39% over 2008. Due in part to the 2009 digital transition for televisions, the number of TV's recycled increased 82% over 2008.

The Computer Recycling Center is also proud to announce that is will now accept Glass for recycling. In an effort to expand and diversify the services offered to the Springfield metro area, the Computer Recycling Center now accepts and recycles glass. The City of Springfield and other local municipalities have already shown their support. The Computer Recycling Center will partner with the City of Springfield and other municipalities in their glass recycling processes.
