

ONE date to remember: **October 7-8, 2010**

Mark your calendar now for the third annual
Ozarks New Energy Conference
at Missouri State University's Plaster Student
Union in Springfield.

**ONE 3 is a forum of ideas about
emerging energy technologies,
innovation and best practices.**

The two-day event brings together researchers, inventors, entrepreneurs, educators, students, government officials, utility representatives, farmers, environmentalists, public agencies, nonprofit organizations, businesses and consumers.

ONE 3 promises to be bigger and better than ever, with a roster of exciting speakers, exhibits, demonstrations and off-site tours, plus practical how-to tips for businesses and individuals. Information-packed sessions will explore a broad spectrum of topics, including:

- **Power generation**
- **Agriculture**
- **Commercial and residential building**
- **Urban and regional planning**
- **Transportation**
- **Conservation**
- **Public policy**
- **Economic impact**

Professional education credits will be available for some sessions.

Ozarks New Energy

ONE purpose:
to promote
responsible and
sustainable
energy choices
for the Ozarks

ozarksnewenergy.org

Ozarks New Energy

is an organization of community leaders and concerned citizens whose ONE purpose is to promote **responsible and sustainable energy choices** for the Ozarks.

ONE seeks

to advance **local energy independence, economic vitality** and **environmental stewardship** through the development of clean, renewable energy solutions.

ONE serves

as a regional clearinghouse for information and ideas from **leading energy experts** and **innovators** working in the areas of solar, wind, hydro, geothermal, biofuels and conservation.

ONE encourages

businesses, governments and individuals to adopt **energy-efficient practices** and **new technologies**.

ONE supports

commercialization of products and services that will ensure **a secure energy future**, while protecting **our environment, our health** and **our natural resources**.

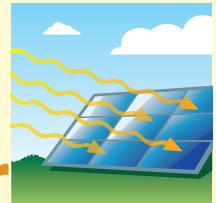

Ozarks New Energy is a 501(c)(3) tax-exempt organization. Your contributions may be tax deductible.
